

Swiftwater Rescue Technician Course (SRT-1)

Join fellow Firemen and SAR volunteers and get certified while practicing your river rescue skills with *professional river rescue instructors*.

This 3-day course mixes classroom instruction with hands-on practice in moving water, focusing on quick and efficient techniques to respond to rescue situations that may occur in the river environment.

Your instructors are experienced whitewater professionals, who work full-time on the river. This makes them an excellent resource for river rescue scenarios.

The course meets the requirements for Swiftwater Rescue Technician 1 certification (SRT 1 - NFPA compliant) by Rescue 3 International.

2015 COURSE DATES:

- April 10-12
- May 15-17
- June 19-21
- September 25-27

LOCATION:

Our conveniently located Wet Planet facilities in Husum, WA, along the banks of the White Salmon River, provide the perfect setting for river rescue training. Just 10 minutes from Interstate 84, Wet Planet is an ideal central location for your next rescue course.

COURSE COST:

\$385: Includes any needed river gear (excl. dry suit)

CUSTOM COURSES:

We can also customize private courses for your location and environment. Please contact us for additional information and pricing.

INSTRUCTORS:

The Rescue 3 certifying instructors at Wet Planet - **Todd Collins**, **Jonathan Blum**, **David Seal**, and **Jeff Clewell** - have been teaching rescue courses throughout the West coast since 2006. As whitewater professionals, they are regularly contacted by local authorities and agencies for assistance in river rescues.
